

# Heaven Only Knows

Emmylou Harris

(Paul Kennerley) Every night it's the same I feel your heart turn cold as rain  
And know that you'll be gone again I hear the front door close  
You say you got to go downtown  
I guess there's someone else you've found  
So why you're still coming round heaven only knows. Heaven only knows just why loving you  
should make me cry  
Make me feel like I could die that's the way it goes  
Heaven only ever sees how love's made a fool of me  
I guess that's how it's meant to be but heaven only knows.  
--- Instrumental --- I've heard it said that talk is cheap  
But still your words they cut so deep  
Lay me crying in my sleep and the pain just grows  
I don't know who's right or wrong but all we had is dead and gone  
So why you keep me hanging on, heaven only knows. Heaven only knows just why loving you  
should make me cry  
Make me feel like I could die that's the way it goes  
Heaven only ever sees how love's made a fool of me  
I guess that's how it's meant to be but heaven only knows. --- Instrumental --- I'm going to turn  
and walk away  
There's nothing left for me to say  
It wouldn't change things anyway  
Though I suppose the love I gave was always true  
Till I don't know what else to do.  
And how I'll ever get over you, heaven only knows.  
Heaven only knows just why loving you should make me cry  
Make me feel like I could die that's the way it goes  
Heaven only ever sees how love's made a fool of me  
I guess that's how it's meant to be but heaven only knows...
