

# Suffering

## The War on Drugs

I was here in the world that you give every time  
You can see that you running cuz I can go back on the street  
Ill be here when we both gonna fake it  
Were awake  
No more try to hear killing you goal  
Mean I can be bigger  
Then you tongues  
In that moments Ive suffering  
I can feel that you give melike a snowflake though the fire  
Ill be frozing in time but youll be here  
Suffering,  
But youll be here suffering  
But youll be here suffering  
Well I hope to be here
