

Suffering

The War on Drugs

I was here in the world that you give every time
You can see that you running cuz I can go back on the street
Ill be here when we both gonna fake it
Were awake
No more try to hear killing you goal
Mean I can be bigger
Then you tongues
In that moments Ive suffering
I can feel that you give melike a snowflake though the fire
Ill be frozing in time but youll be here
Suffering,
But youll be here suffering
But youll be here suffering
Well I hope to be here
