Oslo

Anna of the North

Winters night, Oslo Just a burning light in the snow Keep me warm, shelter me from the storm On this night, Oslo Brandnew start, Oslo Lighting my heart, red glow Drinking wines, dance on the loaf of Christ In the burning streets, oh Oslo I never wanna leave you I never wanna go You're the one that's in my heart And it makes me feel at home I never wanna leave you I never wanna go I hope you'll still be here Next year We'll go home and become close In upper coast and we're so close I keep you warm, shelter you from the storm Winters night, Oslo I never wanna leave you I never wanna go You're the one that's in my heart And it makes me feel at home I never wanna leave you I never wanna go I hope you'll still be here Next year I never wanna leave you I never wanna go You're the one that's in my heart And it makes me feel at home I never wanna leave
