

# Done Reckoning

## Avail

please, please don't disappear  
i'm clearly unprepared and aloof  
and trained to walk without  
though i can trace the steps we've made clearly  
so what is real?  
we either break it or stay concealed  
don't lack incentive  
don't let me crowd your space  
if you'll do the same i'll slow to match your pace  
please don't disappear  
i know in absense perspectives clear, but don't move  
feel safe to think out loud  
and i'll do the same when passing town through town  
so what is real?  
we either break it or stay concealed  
don't lack incentive  
don't let me crowd your space  
if you'll do the same i'll slow to match your lead  
match your lead  
please, please don't disappear  
i'm clearly unprepared and aloof  
and far behind in count  
though i can trace the steps we've made clearly
