

# Nemesis

## Swollen Members

Thank you ladies and gentlemen  
What is the ultimate truth? This  
Hidden within each of us is not only the capacity to love and hate,  
but to take that final step to be not only a creator, but a destroyer  
A mad, unreasoning killer  
Back to the animalistic  
A monster that lies within each of us  
Back when I was high used to babble on drugs  
Tony Montana in the Babylon club  
Yippie-yi-yo kippie-yi-yi-yay  
Used to sit around gettin' high all day  
Now I work in the studio while y'all play  
So I can get rich, fuckin' smile all day  
Life's such a bitch, been poor so long  
And everything that could, of course went wrong  
Eating horse meat, feelin' like I'm 4 feet tall  
At the airport, here them whisper "he's so small"  
Blue steel Dara licked my balls  
New deal, what I spit's so raw  
Skitzo derelict, disco heritage  
Kids start blarin' and then kids go parakeet  
Kids need therapy, kids sing merrily  
Spread like malaria, right through your area  
Strong like a barrier, raw rhyme carrier  
I'm so skitzo, pitbull terrier  
Fishbowl, lookin' from the inside out  
With the scorpion's tail that has been dried out  
Incredible, amazing  
Forget it boy, I'm blazing  
Rappers think they dreaded get beheaded in the basement  
Red all on the pavement, permanent address  
While I cut these rappers up like Terminator X  
Evil lets people's reps double then triple, yet  
No good can come from it, no one you've ever met  
Treble clef, rebel's rest, never get, Everest  
Crow's nest, eagle's crest, second best, records cast  
Patients, less effortless, stress is for emphasis  
Ingest the asbestos and festers, ancestral orchestral  
My elemental death code's the nemesis  
The premise is stay off my premises  
Genesis, jenum is paralysis  
Renaissance, innocence  
Inject like an insect and dissect your sidekick  
In a psychic environment

Finish this sentiment  
Detrimental entrails are spread across continents  
Provinces, promises, anomalous, conglomerates  
My dominance is obvious  
Provocative and ominous  
Lose like a locomotive, chokehold psychologists  
Barren landscapes, seals fate in a  
Sarcophagus
