## Ne Obliviscaris

All veiled by sunlight  
A murder for evenfall  
Where a new dawn resides  
Veiled by sunlight  
All veiled by sunlight  
Of gilded silhouettes  
Where long shadows riseAs winds whisper, o' harbinger, lamenting twilight  
All drowned within, cold stars ignite  
The world closed its eyesOf Lorelei  
Dead dreams rising  
Lost to a frayed dimension  
And what lies beneath  
The labyrinth within the sea  
The black skies of twenty thousand leagues  
Keelhauled and crippled  
Tangled in misery  
An abyss of dying dreams  
Cascading delirium
