

# Blow

## Atreyu

So fuckin' blow those words out the back of your head  
I've heard it all and I'm done with that shit  
You tell me lies and you get what you get  
So blow those fuckin' words out the back of your head  
(Whoa)  
Oh my god did you just hear? Lies are coming back in style  
Oh my god this seems so real  
(They can find you)  
Shut your mouth we've heard it all  
Hypocrites and critics all  
Can fuck off but do this for our  
Souls (all our souls)  
What they say  
Won't make us go away  
So fuckin' blow those words out the back of your head I've heard it all and I'm done with that shit  
You tell me lies and you get what you get  
So blow those fuckin' words out the back of your head  
We're not sorry and we won't conform  
It's not a choice but something inborn If we fail following our hearts  
Can you blame us? (no no no)  
A square peg in our black hole  
We don't fit in, that's the way it goes  
You shouldn't act like you're better than us  
'Cause you're not (NO NO NO)  
What they say  
Won't make us go away So fuckin' blow those words out the back of your head  
I've heard it all and i'm done with that shit  
You tell me lies and you get what you get  
So blow those fuckin' words out the back of your head  
Tell yourself, you're not alone at all (looking out your window, know you're not alone)  
(guitar solo)  
What they say Won't make us go away (GO AWAY GO AWAY GO AWAY) So fuckin' blow  
those words out the back of your head  
I've heard it all and i'm done with that shit  
You tell me lies and you get what you get  
So blow those fuckin' words out the back of your head  
So fuckin' blow those words out the back of your head  
I've heard it all and i'm done with that shit  
You tell me lies and you get what you get  
So blow those fuckin' words out the back of your head  
Blow those fuckin words out the back of your head  
OF YOUR HEAD
