

# All the Kids Are Depressed (NOW What's Next!)

Jeremy Zucker

How long have you been smiling  
It seems like it's been too long  
Some days I don't feel like trying  
So what the fuck are you on  
Whoa, ohh I think too much, we drink too much  
Falling in love like it's just nothing  
I want to know where do we go  
When nothing's wrong  
'Cause all the kids are depressed  
Nothing ever makes sense  
I'm not feeling alright  
Staying up 'til sunrise  
And hoping shit is okay  
Pretending we know things  
I don't know what happened  
My natural reaction is that we're scared  
Ohh-oh-oh  
Noo-oo-oo  
Ohh-oh-oh...  
So I guess we're scared  
Ohh-oh-oh, ohh-oh-oh But I can't really keep lyin' (lyin')  
'Cause I've been scared all along (all along)  
I'm getting sick of sleeping in  
While all my friends are popping pills, and  
I don't think that they're wrong, woah, oh  
I think too much, we drink too much  
Falling apart like it's just nothing  
I want to know, where do we go  
When nothing's wrong 'Cause all the kids are depressed  
Nothing ever makes sense  
I'm not feeling alright  
Staying up 'til sunrise  
And hoping shit is okay  
Pretending we know things  
I don't know what happened  
My natural reaction is that we're scared  
Ohh-oh-oh  
Noo-oo-oo  
Ohh-oh-oh...

So I guess we're scared I won't deny it 'cause you saw what it was

I can't deny it if you won't give a fuck  
So I'll start it out  
You know I am so in love
