

Over the Horizon

RoQy TyRaid

[RoQy TyRaid]

This is for the youngin' with the student loans, old heads with mortgages
Title loans, Pay Day Advance money forfeiters
Don't think we ain't noticed ya, roll with us
Over The Horizon, this is good times man
Whether or not you're knee deep with two or three jobs
And an EBT card and ya need a restart. Hey Hey!
Just follow me as we embarkin
Over The Horizon, this is good man
Yeah, Yeah, Yeah
This that "fuck it music" /
"Six pack in a cooler or a bucket music" /
"Potent and strong, perfectly rolled blunt. Coolin' Out puffin music" /
"Peel out while bumpin loud in public music" /
Some take a spin, play games, or hit the gym/
Stay in or get with friends, escapism is different for instance, me/
I'm inclined to dive inside my music, I'm reclusive/
A private life's a vice of introverts, it's not exclusive/
But anyways, back to that LAX state of mind/
You gon' need a peace of that, after that bad day slavin at that backbreaking grind/
For insufficient cash/
Barely keep up with them numbers on that gas station sign/
I'm all about escaping and stay-in vacations/
Long as you use your tools in moderation/
Don't mean to be corny but keep your foot off the pedal, make sure your blunt ain't too fat/
Go into clubs with your cash, don't use your card, it goes fast/
So we can all go to Vegas and mob around Manhattan like we made it/
Instagram each other like we're A List/
Trials and tribulations are sure to come/
But even airplanes have to do circles in order to move up. True enough/
I'm due for a little leisure/
And a Latina that's hot and ready like Little Caesar's/
I'm so facetious, I hold the keys, just/
Roll with me like you don't know what "E" is/
Check it
This is for the youngin' with the student loans, old heads with mortgages
Title loans, Pay Day Advance money forfeiters
Don't think we ain't noticed ya, roll with us
Over The Horizon, this is good times man
Whether or not you're knee deep with two or three jobs
And an EBT card and ya need a restart. Hey Hey!
Just follow me as we embarkin

Over The Horizon, this is good man I make it happen, I don't make dues, I paid those/
Break rules, ain't no "take twos" just "game over"/
I'm the best at makin' it work with next to nothing, minimal bread/
But still poppin out the door, fresh out the oven, give me respect/
As I, cruise along Santa Monica boulevard/
And pull a shorty from my Accord, on my accord/
If she climb aboard, we ridin' 'til the tires worn and wires showin'/
Or hug the curb like the sirens on, and I am ghostin' !/
I left my struggles at the crib like troubles over chips/
Can't wait until my hustle starts to bubble in this bitch/
I'ma save, hit the Grammys, walk the red carpet like a parade/
Me and my squad marchin like a brigade, it's all grav' /
A breather is needed before I cave/
See me at the show, front row of the strage/
I'll never treat this moment in vain/
Sunshine before Darkness, Joy over Pain/This is for the youngin' with the student loans, old
heads with mortgages
Title loans, Pay Day Advance money forfeiters
Don't think we ain't noticed ya, roll with us
Over The Horizon, this is good times man
Whether or not you're knee deep with two or three jobs
And an EBT card and ya need a restart. Hey Hey!
Just follow me as we embarkin
Over The Horizon, this is good man Over The Horizon, this is good times (x 2)
Over The Horizon, this is good times man
Over The Horizon, this is good times
Over The Horizon, this is good (x 2)
Over The Horizon, Over The uh-uh-uh
Over The Horizon, this is good times Yeah. Yeah
