

Death Grips

Mason Jennings

Listening to Death Grips on my headphones
Listening to ex-military
Listening to Death Grips on the car stereo
Cannot get it loud enough
Cannot get it loud enough for me You are so beautiful, just as you are
Yours is the only face I see
You are so beautiful, wherever you are
Cannot get you close enough, cannot get you close enough to me
I was looking for you, I was halfway across the sky
When the life I had been living ended right before my eyes We're gonna change the world
together
Together, change the world for better
My heart don't lie to me
Two hearts just long to be
Free
Free Everything that matters has to suffer
Everything that's happened has to be
Everything that matters has to suffer in order to live
Cannot take that suffering, cannot take that suffering from me I was looking for you, I was
halfway across the sky
When the life I had been living ended right before my eyes
We're gonna change the world together
Together, change the world for better
Your heart don't lie to me
Two hearts just long to be
Free
Free
Free
Free
