

# Anthem

## Superchick

Here's to the ones who don't give up  
[3x]

This is your anthem, get your hands up  
We are fire inside, we are lipstick and cleats  
We are not going home, and we are playing for keeps  
We are girls with skinned knees, we are concrete and grace  
We are not what you think, you can't keep us in our place  
Here's to the girls on their boards with  
bruises and scars

Here's to the girls whose fingers bleed from playin guitar  
Here's to anyone who never quit when things got hard  
You'll never let them say you'll never get that far

We are fire inside, we are an army asleep  
We are a people awaking to follow their dreams  
We don't have time for your games  
We have our own goals to score

There are trophies to win instead of being one of yours  
Here's to the girls on their boards with  
bruises and scars

Here's to the girls whose fingers bleed from playin guitar  
Here's to anyone who never quit when things got hard

You'll never let them say you'll never get that far  
Here's to the ones who don't give up  
[3x]

This is your anthem (anthem)

Here's to the girls on their boards with bruises and scars  
Here's to the girls whose fingers bleed from playin guitar  
Here's to anyone who never quit when things got hard  
You'll never let them say you'll never get that far
