

# So Fine

## Mint Condition

Such a beautiful lady  
The kind you find in a dream  
And dreams are so real for me With eyes so warm and soothing  
They put me in a trance  
And I imagine us by the warm cozy fireplace The light shines on your face  
Your smile gets me higher and higher  
My heart starts to race I gotta say what I feel  
Cause girl you look so good to me Chorus: So fine lady  
So fine you sway me  
So fine lady  
So fine you sway me  
Verse: Can't believe my eyes  
Take me for a ride  
Such a woman of quality  
Your body's so supreme  
When you dance you sway so elegantly Girl you simply dazzle me  
You put me in a trance  
And I imagine you and me  
Just kissin away My fingers in your hair  
Your embrace holds tighter and tighter  
Your touch makes me say I gotta stop to look  
Cause girl you look so damn good to me  
Chorus Guitar solo Chorus Adlib til the end of song
