

# Stay With You

Tarrus Riley

(intro)

yeah heeey(verse 1)

We've been together for a while now  
growing stronger everyday now  
feel so good and there is no doubt

I will stay with you  
as each morning brings the sun rise  
and the flowers bloom in spring time  
on my loving you can rely

I will stay with you

(chorus)

Oh I will stay with you  
through your ups and your downs

I will stay with you  
with no one else is round  
when the dark clouds away

I will stay by your side  
and I know will be all right

I will stay with you(verse 2)  
though relationships get old  
and have the tendency to grow cold  
we've got something like a miracle

I will stay with you

(chorus)

Oh I will stay with you  
through your ups and your downs

I will stay with you  
with no one else is round  
and when the dark clouds away

I will stay by your side  
and I know will be all right

I will stay with you(verse 3)  
there'll be heartaches and pain yeah

though it all

we'll remain

in this life we all know

friends they come

friends they go

but through the years I know I will stay

and in the end we'll find

love so beautiful and divine

we'll be lovers for a lifetime I will stay with you(chorus)

Oh I will stay with you  
through your ups and your downs  
I will stay with you  
with no one else is round  
when the dark clouds away  
I will stay by your side  
and I know will be all right  
I will stay with you  
Oh I will stay with you  
through your ups and your downs  
I will stay with you  
with no one else is round  
when the dark clouds away  
I will stay by your side  
and I know will be all right  
I will stay with you
