

# Good for You

Toto

If you're dreaming, son don't you rise,  
I never get lost, so deep into eyes  
I won't give up until you give in,  
But I know you must realize I could be good for you,  
you could be good for me too  
I could be good for you,  
you could be good for me too Everyone knows, but they don't know why,  
How much will a smile, you satisfy  
Stars gonna shine, the way that you feel,  
So there is no reason to wonder why I could be good for you,  
you could be good for me too  
I could be good for you,  
you could be good for me too  
Everyone knows, but they don't know why,  
How much will a smile, you satisfy  
Stars gonna shine, the way that you feel,  
So there is no reason to wonder why I could be good for you,  
you could be good for me too  
I could be good for you,  
you could be good for me too Everyone knows, but they don't know why,  
How much will a smile, you satisfy  
Stars gonna shine, the way that you feel,  
So there is no reason to wonder why I could be good for you,  
you could be good for me too  
I could be good for you,  
you could be good for me too  
Everyone knows, but they don't know why,  
How much will a smile, you satisfy  
Stars gonna shine, the way that you feel,  
So there is no reason to wonder why
