Circles

Digitalism

Hello to the good times When did you leave me behind I didn't have enough time For this stuff, on my mindNow when you're trying to rewind You're caught up in a never-ending circle we play it again And again and again Just give me more Just the same, just the same We play it again Caught up in a never-ending circle Play it again You're friends with the madness Gotta give it some more loving Cause you can hear what the answers You won't let it beginNow when you're trying to rewind You're caught up in a never-ending circle We play it again And again and again Just give me more Just the same, just the same We play it again Caught up in a never-ending circle Play it again I play it againI play it again I play it again and again and again We play it again Again and again I just play it again and again I play it again and again I play it again and againI play it again and again I play it again and again

And again and again I play it again and again And again and again And again Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
