

Julia

Fefe Dobson

Tell me this is not the end, Julia
You my love, my oldest friend, Julia
I see you with flowers in your hair, Julia
Running around without a care
Your days were numbered, yeah And I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on you Let the sun light show your face, Julia
No one knows you in this place, Julia
I see there's a distance in your eyes, Julia
Can I even reach you if i try
Or is this goodbye
And I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on you I will shine my light of hope
And change and everything
That might have been
If you'd only hear my warning
If you 'd only hear me calling
I would shine my light on you Tell me this is not the end, Julia
You my love, my oldest friend, Julia
You put your faith and dreams that cared, Julia
Lying with you, your breath so still
She couldn't be trusted, yeah
And I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you, I will
I will shine my light on you
