

# Break My Habits (Spag Heddy Remix) [Instrumental]

## Topic

This is not like me, I don't get that deep  
I'm usually puttin' all my walls up in-between  
I cannot fight this 'cause you make me weak  
My hear is pumpin' like it's following the beat You have got me feelin' like I'm trippin'  
Seen a lot of shit, but you're the real thing  
Nothing like a lovin' that I've witnessed  
When you're with me So just feel my touch and let it  
Make you feel alright  
And I might just break my habits  
And stay with you tonight  
I'll break my habits  
I'll break my habits  
And stay with you tonight  
I'll break my habits Always start off and fight on my own  
Now I'm relying on your love to get it on You have got me feelin' like I'm trippin'  
Seen a lot of shit, but you're the real thing  
Nothing like a lovin' that I've witnessed  
When you're with me So just feel my touch and let it  
Make you feel alright  
And I might just break my habits  
And stay with you tonight I'll break my habits  
I'll break my habits  
I'll break my habits  
All that I need is a quick fix from you, baby  
You'll wanna leave 'cause I give something new so I'll I'll break my habits  
I'll break my habits
