

God of the Mind

Disturbed

Get in, get in, get in, get into now
Get in, get into, come take over me
Get in, get in, get in, get into now
Get in, get into, come take over me
Get in, get in, get in, get into now
Get on, get into like me
Time, not having an easy time
Never gonna have an easy time
Given the run around to me
I can feel it coming around again
Time, a changing, a wasting
Come and get up in my face again, yes
Time, given the run around to me
And I'm not having an easy time
Never having an easy
You know this time, it has never gone easy
Time, never having an easy
You'll never meet another like me
Get in, get into like me, like me
Get in, get into like to me, like me
Get into like me, like
Time, not having an easy time
Never gonna have an easy time
Given the run around to me
I can feel it coming around again
Time, a changing a wasting
Come and get up in my face again, yes
Time, given the run around to me
And I'm not having an easy time
Never having an easy
You know this time, it has never gone easy
Time, never having an easy
You'll never meet another like me
Get in, get into like me, like me
Get in, get into like to me, like me
Get into like me, like
Get ready, time never gonna die
Never gonna give into me
You want a deity like me, you want a God
But you're never gonna give into me
Want a deity like me
Time never gonna die
Never gonna give into me
You want a deity like me, you want a God
But you're never gonna give into me
Want a deity like me
Time, get it, get it

Time is just another God of the mind
Time, get it get it
Time is just another God of the mind
Time, never having an easy
You know this time it has never gone easy
Time, never having an easy
You're never gonna meet another like me
