

Create It (feat. Gio Dee)

Kyle Bent

Chorus : imma a little curious
[(Mhmm, mhmm, mhmm) (ye)]2x
So im done waiting, done anticipating
because your fate is only what you make it
So create it
(mhmm, mhmm, mhmm, mhmm)
So create it1 verse : cant mess with that negative energy from any enemy
Hating my destiny
Feeling that jealousy
Because they mention me
As a celebrity
But if you met with me
You would have empathy
You would understand why heaven is blessing me
Spitting that sickness without a remedy
Cooking up hits with the perfect recipe
Telling me I have a future ahead of me
(alright, alright)
Dont care bout the system or music anatomy
(all lies, all lies)
Tryna get in your head ,give you mislead thoughts
Dont cherish your bread or some threads you bought
Appreciate the good things in life
If you die tonight you wont get that twice
Dont hold no grudges, go make that right
Apologies aint nothing at your grave site
Gotta spread that love like margarine
Why not just live in harmony
Forget your struggle with poverty
A little bit of this might be all you need
That was the hippy philosophy
To love your neighbor
Dont act in anger
A little bit of ganja might be in your favor
Share your light it might just be your savior
Take flight and show this life what your made of
Haters tryna close me down like hangers
Then smile in your face like the kool-aid man does
Hand in your face when you point that cameraChorus : imma a little curious
[(Mhmm, mhmm, mhmm) (ye)]2x
So im done waiting, done anticipating
because your fate is only what you make it

So create it
(mhmm, mhmm, mhmm, mhmm)
So create it
Verse 2 :
Im Just working, Stop lurking
You lames is hurting for certain
doing this verse without cursing
Tryna keep flowing like currents
Trust me, my brother in current
Aint gon change up my purpose
Up in the kitchen, cooking up a new meal
Hope you like what Im serving
We did it all with no deal
Steady speaking that real
cause them lies aint no feeling
But thats just how I feel
All these haters my targets
And bruh Im aiming to kill
Strictly about my business, talk to me with some bills
And when will they
see that Im one of the greatest
On another level
Straight elevated
Educated
Dedicated
so focused
I told em I was gon make it, wasnt joking
Am just tryna put my city on and make sure we get noticed
What up Kyle Bent, thats my little brother
We aint got time to pay attention to you suckers
Mind set like a jew
Cause all I see is the money
I aint worried about you
I aint worried about ...
Chorus : imma a little curious
[(Mhmm, mhmm, mhmm) (ye)]2x
So im done waiting, done anticipating
because your fate is only what you make it
So create it
(mhmm, mhmm, mhmm, mhmm)
So create it
