

Stupid World (feat. Bibi Bourelly) [Daktyl Remix]

Hermitude & Daktyl

[Intro]

(Light, light, light, light)

(Light, light, light, light)

Light the way

(Light, light, light, light)

Light the way

(Light, light, light, light)[Verse 1]

I don't come from a pretty place

And I get mad when I don't get my way

She can't stand it when I drink

'Cause I say whatever is in my brain

[Chorus]

And I have burned some bridges

But many bridges I burned light the way

I have burned some bridges

But many bridges I burned light the way[Post-Chorus]

(Light, light, light, light)

Light the way

(Light, light, light, light)

Light the way

(Light, light, light, light)

Light the way

(Light, light)[Verse 2]

I can't help that my IPA

Makes it easier to get through the day

I don't think that my GPA

Says anything 'bout the way I think

[Chorus]

And I have burned some bridges

But many bridges I burned light the way

I have burned some bridges

But many bridges I burned light the way

And I have burned some bridges

But many bridges I burned light the way[Outro]

(Light, light, light, light)

Light the way

(Light, light, light, light)

The sun is not in this stupid world

The sun is not in this stupid world

The sun is not in this stupid world

The sun is not in this stupid world, ooh
