

# Freaks Come Out At Night (feat. Busta Rhymes)

## Uncle Kracker

Hey, now who goes there?  
Busta Rhymes and Uncle Kracker ya'll  
Check it, yeah The freaks come out, the freaks come out  
The freaks come out, the freaks come out  
The freaks come out, the freaks come out  
The freaks come out, the freaks come out Broken glass everywhere  
People freak the hallways and freak the stairs  
Ain't a care in the place, no style or grace  
Keep your brights on baby and hide your face (c'mon)  
Slide the ace and erase your mind  
If you came to freak, then I've got some time  
Fall behind and I'll do the same  
And get it on baby like my man Mills Lane  
No shame, feel no pain  
The night might fall, but we're in the same lane  
Rain or shine we could all be free  
And you can rock this, till you can't see  
So watch me, and I'll watch you  
You know the party don't stop till I say it's through  
Check to any time or town  
And you can find your Uncle when the sun goes down  
The freaks come out at night (everybody)  
The freaks come out at night (c'mon now)  
The freaks come out at night (everybody)  
The freaks come out at night (c'mon now)  
The freaks come out at night (c'mon now)  
The freaks come out at night (everybody)  
The freaks come out at night (c'mon now)  
The freaks come out at night (everybody) Hey, yo  
If you're hangin' out late I hope you got caught  
Cause it ain't till 12 when the party really start BOOM  
It's frightening the way we climbin' up the charts  
So make way, cause you know we comin' to tear the place apart  
Winin' and dinin' all over, spooking all the crackers  
Let's keep thing crackin' and keep the people wowin'  
I'm sayin' the door about to shut, you better start runnin' in  
Before they close the spot and all the freaks start comin' in  
Everybody up in the streets start to funnel in  
And let all my people that use to go down to the tunnel in  
See when we come through and step on the scene

I razzle and dazzle the people with my mystery machine  
Freaks come in all shapes, sizes and colors  
They can come from any direction even come straight out the gutter  
I'm sayin' if you wanna live a quiet life  
You need to stay up in your house and don't come out at night cause  
The freaks come out at night (everybody)  
The freaks come out at night (c'mon now)  
The freaks come out at night (everybody)  
The freaks come out at night (c'mon now)

The freaks come out, the freaks come out  
The freaks come out, the freaks come outFreak it to the left, and freak to the right  
In the middle, just a little, if it feels alright  
All night till the break of day  
You can come for a while, but you can't stay  
It's no place for the weak at heart  
What's Busta say?  
It don't start till dark (yeah)  
Up in the parks, the clubs, the halls  
Turn the cell phones off, we ain't takin' no calls  
And don't fall cause the nights are young  
Ain't nobody gonna stop till we see some sun  
Hit me one, hit me two, three times  
It's your Uncle Kracker and Busta RhymesThe freaks come out at night (everybody)
