

Blackbird

Fat Freddy's Drop

There was one before
And now are many
And as the days go by
I see them multiply
I can't eat
I can't sleep
Because I know
They've been watching me
Falling down on me
There's a, blackbird
In my garden
Oh!
There was one before
And now are many
And as the days go by
I see them multiply
I can't eat
I can't sleep
Because I know
They've been watching me
Falling down on me
There's a blackbird
In my garden
Oh!
