

# Bad Vibrations

## A Day to Remember

Don't forget that this is a choice  
Pick your poison  
Live with remorse  
Don't forget that this is a choice  
Pick your poison  
Live with remorse I could burn a hole with my eyes that cuts straight through the skin  
No more love, no more resolution  
It's getting harder bearing the darkness within  
I gotta let it out  
I'm gonna let it...I can feel your bad vibrations  
All around me  
All consuming  
Corrupting all that I am  
This pain is a sickness looming over me, and I can't escape it  
Casting shadows that continue to shape who I am on any given day  
It's like a fog surrounds me applying pressure within  
Weighing me down, seeing in double vision  
It hits so hard I stu- stu- stutter my speech  
Ya go kinda cold inside  
Dancing on thin ice I can feel your bad vibrations  
All around me  
All consuming  
Corrupting all that I am  
This pain is a sickness looming over me, and I can't escape it  
Casting shadows that continue to shape who I am on any given day  
This pain is a sickness looming over me, and I can't escape it  
Casting shadows that continue to shape who I am on any given day Toxic  
Toxic  
Toxic  
Toxic  
This darkness, this darkness  
Leaves me empty like  
I am the heartless  
Toxic  
Toxic within
