

Live Forever

Third ? Party

Keep on running towards the Sun
All these hearts, they beat as one
Let's take that throne into the sky
All your hopes and fears, let them roam free tonight
If we could just fly our wings of love, we'd
never hit the ground
If we could just turn those red lights on, we've caught that inner child
There's a world out there for us to share, yeah, we could get so high
If we could just fly our wings of love, we'd never die
We could live forever
We could live forever
We could live forever
We could live forever
Keep on running towards the Sun
You know this journey has just begun
Let's take that throne into the sky
All your hopes and fears, let them roam free tonight
If we could just fly our wings of love, we'd
never hit the ground
If we could just turn those red lights on, we've caught that inner child
There's a world out there for us to share, yeah, we could get so high
If we could just fly our wings of love, we'd never die
We could live forever
We could live forever
Yeah, we could live forever
(We'd never hit the ground, we'd never hit the ground)
We could live forever
We could live forever
(We'd never hit the ground, we'd never hit the ground)
(We'd never hit the ground, we'd never hit the ground)
We could live forever
