

# Since I Seen't You

[Anthony Hamilton](#)

You're 'bout the flyest thang that life could ever bring  
Like fresh air to me the blood I bleed sent to me  
And I want, wanna build with you Since I seen't you, we've been peoples  
You're my equal, this love is see through  
I wanna keep you  
I wanna be with you You're like the softest cloud, a virgin in my eye  
An angel just my size  
Wish that I could fall in love with you again  
And I wanna build with you, oh  
Since I seen't you, we've been peoples  
You're my equal, this love is see through  
I wanna keep you  
I wanna be with you Your conversation is liberating  
When we're relating, it's a vacation  
Like recreation, I want my way with you Ever since the day you walked into my life  
I've never been the same then and not again  
I hope and pray to God that you stay awhile  
With me and Since I seen't you, we've been peoples  
You're my equal, this love is see through  
I wanna keep you  
I wanna be with you  
People  
You're my equal  
I wanna be with you  
Again and again  
Want my way with you  
Want my way with you
