

# The Night Is Young (feat. Ridley)

## DJ Smash

I was walking to London  
My head in the clouds  
I feel that I need the change  
So I pack my bag  
To pack my toothbrush  
To pack my guitar  
They say I'm a good boy  
But tonight I'll be far 'Cause honestly you're the sweetest  
Thing I've ever seen  
So I tell you  
And you smile back at me  
The night is young  
And it can't go wrong with you  
'Cause with you I'm young too  
And the song is not even sung  
'Cause the night is young So I ask you for dinner  
You say "Sure, how's next week?"  
I say "Fine, let's go right now"  
Taking you with into the street  
We drink whiskey and cola  
Spending money I don't have  
One more only, I'm a good boy,  
But tonight I'll be far 'Cause honestly you're the sweetest  
Thing I've ever seen  
So I kiss you  
And you smile back at me  
The night is young  
And it can't go wrong with you  
'Cause with you I'm young too  
And the song is not even sung  
'Cause the night is young
