

Unstable

Janine

[Verse 1]

Maybe it's better if we both say nothing
Walk away like we never knew
Fuck that, I'm begging you
Please say something
You said, "I know that we can make it work"
But loving you is chaos
But the fire is incredible
And, baby, we know we can work it out
Come here and work it out

[Chorus]

Take me on the table
I know sometimes that we're unstable
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh
Take me on the table
I know sometimes that we're unstable, stable
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh
Take me on the
Take me on the

[Verse 2]

Kiss back and forth, I can't count how many
Times we've said goodbye
Love your smile, but I can't count how many
Times you've made me cry
You cried too when we vowed to forget it
And every day I wish I could forgive it
But if you just tell me you'll never lie to me
I'll show you just what I need [Chorus]
Take me on the table
I know sometimes that we're unstable
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh
Take me on the table
I know sometimes that we're unstable, stable
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh [Verse 3]

Show me pictures of the sun
Hold me in the rain
Fuck me up, fuck me good
Do it all again

Pull my hair back
Make the pleasure, mask the pain
Do it all again
I know, I know you love me, but your alone
You bring me to the top
To throw me down to zero
I know, I know I'm sleepin' with the devil
You make me cry to dry my eyes and be the hero[Chorus]
Take me on the table
I know sometimes that we're unstable (we're unstable)
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh
Take me on the table
I know sometimes that we're unstable, stable
Just say my name, I'll take you, take you back, oh
Take me there, I'll take you back, oh
