

On Your Own (feat. Coyle Girelli)

Serge Devant

Ignite the fire you have inside, And shine the light of day into the night Live every moment of your life, Take every wrong you have and make it right When you feel you on your own X 2
When all your hope is gone, You feel u cant go on, When everything seems wrong, Just know that you belong. Spread the love you have inside Don't let the moments of your life pass you by, Cause you can't turn the hands of time, For every second there's star in the sky. When you feel you on your own x 2(chorus repeats)
