Sleep is also known as I'm awake Addicted to the easy life that everybody hates I wonder should I call you or just stare in space again There's always a beginning on your endSomebody get me off this slow descent parade The difference is a hundred miles but a couple months away I'm saying hello just to say goodbyeYou must be tired of waiting Or making plans to go Somewhere between an empty feeling and the worst one that you know But I am saving every photograph of you So every lie I live I see the truth Cold december just got on my board And every noise reminds me of the suitcase by the door I wonder should I wake you up, I watch tv instead These idiots are making me forgetHow much you always forgive everything I do The time and space begin of certain if I'm coming back to you I'm saying this to let you know I try You must be tired of waiting Or making plans to go Somewhere between an empty feeling and the worst one that you know But I am saving every photograph of you So every lie I live I see the truthSomebody get me off this slow descent parade The difference is a hundred miles but a couple months away I'm saying hello just to say goodbye Song Discussions is protected by U.S. Patent 9401941.
