

# Poetic

## Seinabo Sey

I'll mark your every word  
I'll wear the smile you gave me  
Somehow it seemed you saved me  
And if I'm about to fall  
May I go out like this  
May I go out like this And I've tried thinking more poetic  
But it's only easy if you let it  
I swear that you will never regret it  
I swear that you will never regret it When all the chips are down  
and you're not the hottest thing around town  
You need a hand to save me  
Walk you through the maze  
We'll be lost here all the same  
Be lost here all the same  
And I've tried thinking more poetic  
But it's only easy if you let it  
I swear that you will never regret it  
I swear that you will never regret it I'll lose my breath for you  
And I don't want it back  
All that I have is yours  
Went to the moon and back  
so I can prove the fact I'll lose my breath for you  
And I don't want it back  
All that I have is yours  
Went to the moon and back  
so I can prove the fact  
So if you give me this one chance  
I'll show you how I see you  
When memories deceive you  
Right here is where I stand  
I hope you understand  
I hope you understand And I've tried thinking more poetic  
But it's only easy if you let it  
I swear that you will never regret it  
I swear that you will never regret it  
And I've tried thinking more poetic  
But it's only easy if you let it  
I swear that you will never regret it  
I swear that you will never regret it
