

# Shake Her Hand

Eric Roberson

Yeaaaah, oh, listen up, ohh, whoa, oh  
You can say she was a big fan of my words  
And until she had I know she was a fan of the curs  
Guess she and I had whole lot in common  
In most circumstances I'd be all in  
But I ... knew Shawty and I really kinda dig it yeah  
So chilling with this girl don't feel inefficient, yeah  
But she wanna know what I got going on later on  
It wouldn't be wrong if she tagged along  
I thought to myself  
I got a girl back home  
And I can't afford, to just carry  
A wise man once told me when you're facing this  
Shake her hand and just walk away, hey  
I know it sounds crazy but I just got a ... doll  
And she looking at me like don't you think that I'm beautiful  
Understand I'm a man and you're ... is recognized  
But before I'll start out thinking right  
Probably best I'd say goodnight  
I guess she understood, though she didn't seem happy enough  
I mean, how often do guys look in her eyes and just tell her no  
Everything would have been different ... once ago  
Close with a ... said Geronimo, you never know  
But see  
I got a girl back home  
And I can't afford, to just carry on, sugar  
A wise man once told me when you're tempted with this  
Shake her hand and just walk away, hey  
Listen, I got a girl back at home  
And I can't afford, to just carry on, sugar  
A wise man once told me when you're tempted with this  
Shake her hand and just walk away, hey  
Cause you can't afford to loose  
Someone that you care for  
Be careful, if you have someone you love  
Why would you stay there for?  
I got a girl, uh, yeah,  
And I can't afford to be out here carrying on  
A wise man once told me when you're tempted like this  
Shake her hand and just walk away  
Don't even hug her  
Cause I got a girl, yes I do

And she good to me, real good to me  
Whoa, wise man once said, hey  
Shake her hand and just walk away.
