

# Let Me in

## Stereophonics

Let me in  
Came in through the door  
Right before my eyes  
All this time  
Had my picture on the wall Saw my fears  
And thought of all those days  
And all my memories  
Everyday  
Through your eyes  
Then you're gone  
All my life  
And I mean everyday  
You were my everything  
Everything  
Then you choose  
To turn your back on us all And you won't live this life  
And you won't leave these scars Common tell me did you feel it  
Common tell me did you need me  
Common why did you leave me  
Oh no Common tell me did you feel it  
Common tell me did you need me  
Common why did you leave me  
I've gotta know  
Common tell me did you feel it  
Common tell me did you need me  
Common why did you leave me  
I've gotta know
