

Salvation

Scanners

Went to the sea but the tide was out
Stood on the shore but the wind was cold
Waited around till no one's about
Thought of my spirit till my head took hold
Looked in my heart but my heart was empty
Looked to the ground but the road was long
And now I've found my new salvation
It's so new, the old one's young
I've been waiting for the dark to come
My temptation and salvation
I've been waiting for the tide to turn
Dark eyes become divine
I need the love I crave
Your hands, they burn like mine
I'll take you to my grave
Dark eyes become divine
I need the love I crave
Your hands, they burn like mine
I'll take you to my grave
I've been waiting for the dark to come
My temptation and salvation
I've been waiting for the tide to turn
Dark eyes become divine
I need the love I crave
Your hands, they burn like mine
I'll take you to my grave
I'll take you to my grave
I'll take you to my grave
