

# The Last Ride (feat. Utopia)

Todd Rundgren

It's the last ride  
Our little game is over  
It's the last ride  
It's time to take you home  
And we can't cry 'cause we seen it coming  
No use running, take it slowerIt's a dangerous drive  
I'm afraid to arrive  
But I strive to survive  
More a fool than alive  
I thought I knew just everything  
I had it made and I could coast  
But I turned away love when I needed it most  
It's the last ride  
My little game is over  
It's the last ride  
It's time to take me home  
And I can't cry 'cause I seen it coming  
No use running, take it slowerAnd the road rolls around  
And turns through the town  
The depression drips down  
And glazes the ground  
Horizons east and skylines west  
The moon, the sun, and all the rest  
The loving son, the faithful wife  
The burnt out wreck of a poor man's life  
The father, son, and holy ghost  
They all turned away love when they needed it most  
It's the last ride  
Their little game is over  
It's the last ride  
It's time to take them home  
And they can't cry 'cause they seen it coming  
No use running, take it slower
