

# Life Can't Get Much Better

## Good Charlotte

One promise we made it  
We said we'd never break it  
Don't look down, be honest  
Tell me, has it changed? One life that we're living  
We're somewhere unforgiven  
Don't look down, be real now  
Tell me, has it changed? I just want to see you laugh again  
Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken  
Life can't get much better  
Let's just stay forever  
We've got to hold on, we've waited so long  
If I knew we'd end up this way  
Do you really think I wouldn't have tried?  
If I knew it would break us down  
Do you really think I would've lied? Now I try to forget the past  
But it's all that's on my mind  
I'd give it all if I could get you back  
I'd give it all if you were mine I just want to see you here sometime  
'Cause life can't get much better  
Let's just stay together  
These scars are tokens of promises broken  
Life can't get much better  
Let's just stay forever  
We've got to hold on, we've waited so long  
Don't give up on us, on us  
Don't give up on us, yeah  
Tell me that you meant  
Every word you said  
In the text you sent, I was going to bed  
The girl with the blue eyes  
With the blue eyes  
It ain't right, it was fucking with me last night Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken  
Life can't get much better  
Let's just stay forever  
We've got to hold on, we've waited so long Tell me that you meant  
Every word you said  
In the text you sent, I was going to bed  
The girl with the blue eyes

With the blue eyes  
It ain't right, it was fucking with me last night  
Life can't get much better  
Let's just stay together  
These scars are tokens of promises broken
