

# Icepick Gag Reflex

## Cattle Decapitation

Inflamed pus pockets  
On throat and related structures  
Tonsillectomy with no anesthesia  
Streptococci stripped while strangled  
Overdose in lymphocytes  
Paingul inflammation now magnified  
Pussing and gagging on lymphoclots  
Communicable through ingestion of crotch rot  
Gagging pick  
Stabbing the sick  
Cyanotic and blue  
Oral sex with flu
