Show Me Love (Spada Remix)

Robin Schulz & Richard Judge

There's a notebook on the table,

You can take it to the store

So you won't forget the groceries anymoreThere's a rifle in the cabinet

That I used to fight a war

But to this day I don't know what I was fighting for

Been fighting for...Will you

Show me love as we get older

And I'm falling at your feet?

After 30 years of service

And one to fit our need.

Show me love as we grow colder;

Let our love provide the heat

That our older bones are missing

But our hearts will never need.

There's a blanket on the sofa

That I use to keep you warm

When I find you fast asleep at half past four. There's a record we keep turning

That reminds us of our youth -

But there's still nothing as beautiful as you.(As we grow colder

Love provide the heat

Older bones are missing

Hearts will never need)Because your hand

Belongs in my hand,

Belongs in your hand;

Belongs with...

With me!

(Blanket on the sofa

That I use to keep you warm

There's a record we keep turning

That I used to turn you on)Will you

Show me love as we get older

And I'm falling at your feet?

After 30 years of service

And one to fit our need.

Show me love as we grow colder;

Let our love provide the heat

That our older bones are missing

But our hearts will never need.
