Bind Your Love

[Cher Lloyd](#)

Ooh, I don't care what anyone says
Cause you and I are bigger than this
And I'll be there just keepin my arms wide open
Ooh, they can try to pull us apart
I'll fight them but I'll cover your heart
Yeah, we can fly together, we can't be brokenYeah, we can find love, just like that
We can fall hard, just like that
Yeah, we could do it all, just like thatAnd I like it when you call me, I will always find you
When you need me out, I'll come for you
And when you're lonely, I will find a way to
Guide you home to me, I'll come for you, come for youI will bind your love, bind your love to me, me
I will bind your love, bind your love to me, me
Ooh, now I'm found, I'll never be lost
I'll stick with you no matter the cost
Whatever comes we'll figure it out, I know that
Ooh, you and I like Adam and Eve
You lit the fire growing in me
You changed my life, now there is no way to go backYeah, we can find love, just like that
We can fall hard, just like that
Yeah, we could do it all, just like thatAnd I like it when you call me, I will always find you
When you need me out, I'll come for you
And when you're lonely, I will find a way to
Guide you home to me, I'll come for you, come for youI will bind your love, bind your love to me, me
I will bind your love, bind your love to me, meOoh, now I'm found, I'll never be lost
I'll stick with you no matter the cost
Whatever comes we'll figure it out, I know that
When you call me, I will always find you
When you need me out, I'll come for you
And when you're lonely, I will find a way to
Guide you home to me, I'll come for you
When you call me, I will always find you
When you need me out, I'll come for you
And when you're lonely, I will find a way to
Guide you home to me, I'll come for you, come for you
I will bind your love, bind your love to me, me
I will bind your love, bind your love to me, me
I will bind your love, bind your love to me, me
I will bind your love, bind your love to me, me
