

# Girl At Coachella (feat. DRAM) [SDJM Remix]

## Matoma & Magic

I thought I met the one  
She had everything I wanted  
A beauty in the sun  
And we like the same pants We danced, we liked, we took a couple tanks  
We creamed, we clapped, like kids in the sand  
The time we had was something from a dream  
'Til reality kicked in And she said, she said she'd run away with me  
So I took her to the VIP  
And when the lights went on she was gone forever  
Never trust a girl at Coachella  
She said she was the one for me  
She was kissing me from cheek to cheek  
And when the lights went on she was gone forever  
Never trust a girl at Coachella  
I met another one  
Standing in a sundress  
She was innocent at first  
Introduced me to her girlfriends We danced, we loved, with water in our hands  
We screamed, we clapped, like kids in the sand  
She restored my faith in the human race  
'Til reality kicked in And she said, she said she'd run away with me  
So I took her to the VIP  
And when the lights went on she was gone forever  
Never trust a girl at Coachella  
She said she was the one for me  
She was kissing me from cheek to cheek  
And when the lights went on she was gone forever  
She was gone, gone, gone, gone  
Never trust a girl at Coachella  
I'm still trippin' off a devious plan  
I was trippin' off the shrooms  
She was trippin' for a band  
She took notice of some fans  
And stopped for pics, 'cause I'm the man  
She jumped over on my dick  
'Cause she just realized who I am  
Got her past the gate  
Actin' like my date  
Soon as she got in  
Started actin' fake  
She ain't wanna stay close to me  
Even though she was just blowin' me

Blowin' in the wind, bus to bus  
Member to member, all for lust  
Lead singer to the man on the drums  
Slow in her waist but as fast as they come  
She said she'd run away with me  
So I took her to the VIP  
And when the lights went on she was gone forever  
Never trust a girl at Coachella  
She said she was the one for me  
She was kissin' me from cheek to cheek  
And when the lights went on she was gone forever  
Never trust a girl at Coachella  
She was gone  
Run away with me  
She was gone  
VIP  
Lights went on, she was gone forever  
Never trust a girl at Coachella  
Never trust a girl at Coachella
