

Genesis

Deftones

I reject both sides of what I'm being told
I've seen right through, now I watch how wild it gets I finally achieve
Balance, balance, balance...
Approaching a delayed
Rebirth, rebirth, rebirth... I'm positive there's no sense to what I'm being sold
Yet here I go, I watch how wild we get Oh can you taste your life
Balanced, balanced, balanced...
How will you spend your time
Reborn, reborn, reborn... Climbing out of the ashes
Turning time inside out
We're miles beyond the sound
We'll start again, taste a lifestyle that never gets old
Yet here we go, just watch how wild it gets I finally achieve
Balance, balance, balance...
Approaching a delayed
Rebirth, rebirth, rebirth... Climbing out of the ashes
We're turning time inside out
We're floating off in the ether
We're miles beyond the sound We're everywhere
No need to return
I'll show the way We're everywhere
No need to return
I can show you where
No need to return
I can show you
Climbing out of the ashes
We're turning time inside out
Floating off in the ether
We're miles beyond the sound Oh can you taste your life
Balanced, balanced, balanced...
How will you spend your time
Reborn
