

# Heroine

## Sleeping With Sirens

My eyes roll back  
The ceiling fades  
I breathe you in, exalt your flames  
Let's lose our minds  
Come here to me We're wasting time,  
Darling, can you hear me?  
Heroine, my sweetest sin  
I can't seem to get enough  
Pull me under  
Wake me up  
Feel the rush  
Morphine lover, make me numb  
Make it so I can't get up  
Paper-thin till you sink in  
Could you be my heroine?  
Do you feel exposed?  
Let your feelings show  
Can I taste you, can I replace you?  
I need to know  
Let's lose our minds Please stay with me  
We're wasting yeah, we're wasting time  
Why don't you believe me?  
Heroine, my sweetest sin  
I can't seem to get enough  
Pull me under  
Wake me up  
Feel the rush  
Morphine lover, make me numb  
Make it so I can't get up  
Paper-thin till you sink in,  
Could you be my heroine?  
It starts with the spins, yeah you got me swimming in I'm falling to pieces, and I won't be whole  
Until you let me in  
Until you let me in  
Until you let me in  
Until you let me in oh  
Heroine, my sweetest sin  
I can't seem to get enough  
Pull me under Wake me up  
Feel the rush  
Morphine lover, make me numb  
Make it so I can't get up

Paper-thin till you sink in,  
Could you be my heroine?  
My heroine,  
My heroine,  
Could you be my heroine?
