

# Heartbreak Dream

Betty Who

it's you and me  
it's slow dancin to anything playin  
it's us colliding  
it's never findin when we should say when  
I, I, I can feel it  
when i look in your eyes so clearly  
I, I can see that you need me  
and all that we were  
I, I can taste it  
all the days that you've been wastin  
I, I know that you can't face them  
and all that we were  
In a moment  
you were everything to me  
in this moment  
we're livin in a heartbreak dream  
we're livin in a heartbreak dream  
it's holding hands  
it's making plans that we're never keeping  
it's silent drivin  
it's always findin reasons to sleep in  
ah, ah when you're near me  
I'm yellin and you can't hear me  
can you feel me  
and all that we were  
I, I can taste it  
all the days we've been wastin  
i know that you can't face them  
and all that we were  
In a moment  
you were everything to me  
In this moment  
we're livin in a heartbreak dream We're livin in a heartbreak dream  
When you hold me  
it feels like you don't know me  
We are worlds apart  
When you kiss me  
i know you haven't missed me  
You keep breaking my heart In a moment  
you were everything to me  
In this moment  
we're livin in a heartbreak dream (End)
