

# The Internet

## Tacocat

Hate from the basement  
Hate from the insecure  
When you're anonymous  
No consequence to fear  
Your place is so low  
Human mosquito  
No conversation only vitriol  
What place do you have  
What place do you have  
What face do you have  
What face do you have  
Would you or wouldn't you  
Nothing of value  
The dregs, the tiresome  
Dumbed down for everyone  
Your mind is narrow  
Your head is hollow  
Caught up forever in the trivial  
What place do you have  
What place do you have  
What face do you have  
Your place is so low  
Human mosquito  
No conversation only vitriol  
What place do you have  
What place do you have  
What face do you have  
What face do you have
