

Zone

Alex Simmons

[Verse 1]

You're picture perfect, I ain't gotta lie,
Baby you ain't even gotta try, You just do you,
I can see the look up in you eye, I'm just tryna get you in my ride,
I know we just met, So tell me what's your name,
I just wanna get to know you, Do you mind giving me a time,
I ain't got nothing to do tonight,
All eyes on ya, No I ain't playing,
I love your strut baby can I take you home,
Girl come with me, No we ain't staying,
No need to worry but hurry cause time is wasting,
I love your touch girl you give me a rush and I,
Just wanna get you to myself all night long,
I, know how it seems but I'm loving them jeans baby,
I can give you just what you need,

[Chorus]

Girl don't rush, we can turn up,
Don't want no one around, Tonight it's just us,
Girl relax we in our zone, Sit back don't lead me on,
Cause I'm feeling ya, So baby what's up,[Verse 2]
Say goodnight to your friends, I don't really care where we going,
We gon pop them bottles while we there cause we zoning,
I love the way you stare when you want it, We gon do some freaky shit,
My body on your body, I know you like that girl,
It's our party let's get naughty, I really wanna rock your world,
Said you know very well who you are,
Don't have to say a word cause you're a star,
So tell me girl what we doing, I'm really tryna get you all to myself,
Ain't nobody else, Baby I ain't playing,
I love your touch girl you give me a rush and I,
Just wanna get you to myself all night long,
I, know how it seems but I'm loving them jeans baby,
Girl you better know that I can give you just what you need,

[Chorus]

Girl don't rush, we can turn up,
Don't want no one around, Tonight it's just us,
Girl relax we in our zone, Sit back don't lead me on,
Cause I'm feeling ya, So baby what's up,[Verse 3]
Hol up lil mama, You know what we doing,
We can party, Get it started, We can chill up in my room,
Sipping on that Henny while we dancing to some tunes,
Then she dropped it to the floor and made that booty go...BOOM,

Look don't even play with it, I constantly surround myself by the same women,
I know you think that I'm a player man that ain't fitting,
And you can't go by when you see me in these streets man that's way different,
Enough of that, tryna get you in the zone,
My intention ain't to trick you into getting out them clothes,
Girl I'm with you what you into baby we can take it slow,
Just in case you still concerned about me having all these hoes,
But I ain't lying to you, Apologize and recognize that I'm trying for you,
And be reminded that I'm striving to confide in you,
Girl you ain't shy, Look at your stride in your designer shoes,
I promise you, I'm honest, you remind me of a diamond,
Please don't mind me testifying that you're shining all so bright,
Girl I'm admiring the sight of you,
In spite of what you're thinking, Girl I'm dying just to vibe with you,
I'm trying to be conscience that you might be finding out if you,
Just wanna give a nigga time,
Not tryna fall in love cause baby that shit it blind,
Don't need to tell nobody what we doing girl we grown,
But in case they wanna know, We just chillin in our zone,
LET'S GO![Chorus]
Girl don't rush, we can turn up,
Don't want no one around, Tonight it's just us,
Girl relax we in our zone, Sit back don't lead me on,
Cause I'm feeling ya, So baby what's up,
