Miracle (Gigamesh Remix)

Ghost Beach

Every time I get up My heart's in the basement I can't get over it I never wanted to work For pieces of paper But I guess that's all I get I wanna win in this world but it's pushing me out I was born in this house and I'm burning it down It's a miracle Even if it's in my head Like a miracle I'm in love again Everybody get out I can't stand underwater Can't seem to touch the ground Your modern tongue Keeps talking it over But it doesn't make a sound What you gonna say to me now? I'm calling you out Cause I was born in this house and I'm burning it down It's a miracle Even if it's in my head Like a miracle I'm in love again It's a miracle Even if it's in my head Like a miracle I'm in love again
