

Wherever (feat. Cœur de pirate)

Felix Cartal

I can guide you while you walk
But I still lose myself
In those times where neon lights
Were the path to our descent
And the whispers we heard
Telling us to back away
They were lost in neon lights
Guiding us too, while we dreamed
But, I wait for the morning
The sun will shine on you
And you'll run back to safety
Wherever you're going to
But, I wait for the morning
The sun will shine on you
And you'll run back to safety
Wherever you're going to
Don't remember when we fought
In the past, we lost ourselves
In those times where neon lights
Were the shine on our descent
And the secrets we told
We're the ones that can be brave
I held onto neon lights
They would be all that is left
But, I wait for the morning
The sun will shine on you
And you'll run back to safety
Wherever you're going to
But, I wait for the morning
The sun will shine on you
And you'll run back to safety
Wherever you're going to
Wherever you're going
Wherever you're going to
Wherever you're going
Wherever you're going to
But I wait for the morning
The sun will shine on you
And you'll run back to safety
Wherever you're going
Wherever you're going
Wherever you're going to
But, I wait for the morning
The sun will shine on you
And you'll run back to safety

Wherever you're going to
