

# Warmer in the Winter (feat. Trombone Shorty)

[Lindsey Stirling](#)

PJs with fuzzy socks  
Ugly sweaters with polka dots  
Warm cookies, had my fill  
I might have gained a pound or two to help with the chill  
Hot cocoa, piping hot  
Snuggled up in our favorite spot  
Whisper things we shouldn't say  
And I don't plan on leaving here til Christmas Day  
Windows frosted  
Summer's sleeping  
But I don't really mind  
I know that it's cold outside  
The world is bundled up in white  
I just need you by my side  
'Cause I'm warmer in the winter with you  
'Cause I'm warmer in the winter with you  
Last year I was on my own  
Hibernating in my empty home  
Santa didn't even help  
I left a plate of cookies  
But I ate them myself  
This year feels so brand new  
Tie a ribbon around me and you  
Santa is checking twice  
He's trying to figure out if we're naughty or nice  
Roads are closed  
Snow is falling  
But I don't really mind  
I know that it's cold outside  
The world is bundled up in white  
I just need you by my side  
'Cause I'm warmer in the winter with you  
I know that it's cold outside  
The world is bundled up in white  
I just need you by my side  
'Cause I'm warmer in the winter with you  
The temperature is toasty for two  
I'm warmer in the winter with you
