

# Hideaway

## Grace VanderWaal

Lyrics:

[Verse1]

Let's wrap a blanket around us  
And go flyin' into outer space  
We could be famous  
Speak a different language  
Make our great escape[Pre-Chorus]  
I'll chase the stars inside your eyes  
And follow you into the great unknown  
We'll be alone

[Chorus]

So let's just play pretend  
And find a secret place  
When the world around us says  
That we should act our age  
The day is gonna come  
When there's no time left to waste  
But we'll never grow up  
I say we hide away[Verse 2]  
And build a city  
Something out of nothing  
Make this place our home  
Our home  
Stay in make-believe  
And we'll go disappearing  
Who would ever know?

[Instrumental break][Bridge]

Just want to hide away  
Hide away, hide away  
Hide away, hide away  
I'll never grow up  
Just want to hide away  
Hide away, hide away  
Hide away, hide away[Outro]  
The day is gonna come  
When there's no time left to waste  
But we'll never grow up  
I say we hide away  
Don't make me grow up  
I say we hide away?
