

Dreams (2AM)

Kye Kye

Awake
Heaven in a way
How these lights they lead
Calm through December I wait
So then I know
I never said I was never tired
You said wake up in the morning
You said oh oh oh oh oH oH
Push, with a heart, with a weight
With all you see and
Push with a heart, with a weight
With the mind that knows the one narrow road
What you said is right, I'll never walk away.
